SUMMARY

Experienced Full Stack Developer proficient in a variety of technologies including React, Angular, Node.js, Django, Flutter, Laravel, AWS, React Native, and C#. With a strong background in web development and a passion for creating efficient and scalable applications, I have successfully delivered numerous projects from concept to completion.

In my previous roles, I have demonstrated expertise in building responsive and user-friendly web applications using React and Angular frameworks. I am well-versed in utilizing Node.js for server-side development, creating robust APIs, and handling database operations. Additionally, I have extensive experience in Django, enabling me to develop secure and scalable web applications.

I am also skilled in mobile app development using Flutter and React Native, allowing me to create cross-platform applications that deliver a seamless user experience across different devices. Furthermore, I have worked with Laravel to develop custom web applications with a focus on performance and maintainability.

With a strong understanding of cloud computing, I have utilized AWS services such as EC2, S3, and Lambda to deploy and manage applications in a scalable and cost-effective manner. Additionally, I am proficient in C# and have developed desktop and web applications using the .NET framework.

Throughout my career, I have consistently demonstrated problem-solving skills, attention to detail, and a strong commitment to delivering high-quality code. I thrive in collaborative environments and have excellent communication skills, allowing me to effectively work with cross-functional teams and stakeholders.

Overall, my diverse skill set in React, Angular, Node.js, Django, Flutter, Laravel, AWS, React Native, and C# positions me as a versatile developer capable of delivering innovative and impactful solutions. I am eager to contribute my expertise to help drive the success of your projects.

for above, more detail

Experienced Full Stack Developer with a proven track record in developing and delivering high-quality applications using a range of technologies including React, Angular, Node.js, Django, Flutter, Laravel, AWS, React Native, and C#.

In terms of front-end development, I have extensive experience with React and Angular frameworks. I have successfully built responsive and user-friendly web applications, utilizing the latest industry best practices and design patterns. My expertise in these frameworks allows me to create dynamic and interactive user interfaces, ensuring a seamless user experience.

On the back-end, I am proficient in Node.js and Django. I have utilized Node.js to develop scalable and efficient server-side applications, leveraging its event-driven architecture and non-blocking I/O model. With Django, I have built secure and scalable web applications, implementing robust authentication and authorization mechanisms.

Mobile app development is another area of expertise, particularly with Flutter and React Native. I have developed cross-platform applications that run smoothly on both iOS and Android devices. By utilizing Flutter's widget-based framework and React Native's component-based architecture, I have created visually appealing and performance-driven mobile apps.

SKILLS

React	Angular	Node	Next
Nest	MongoDB	noSQL	PHP
React Native	Python	Django	
Flask	Laravel	Flutter	MySQL
Postgresql	JavaScript	TypeScript	
C#	ASP.NET		

LANGUAGES

English	Proficient	●●●●●

EDUCATION

Computer Science

Tsinghua University

04/2011 - 03/2015 Beijing, China

EXPERIENCE

Lead Developer

La Pastilla

03/2020 - 10/2021 Madrid, Spain

Collaborate with product managers and stakeholders to understand requirements and translate them into robust system architecture and design.

- Design scalable and reliable software solutions that cater to the complex needs of product operations, including ticketing, payment, access control, and reporting.

Senior Software Engineer

Medcombo

01/2019 - 04/2020 Madrid, Spain

- Collaborate with cross-functional teams including product managers, designers, and healthcare professionals to define system requirements and translate them into a robust, scalable, and user-friendly software architecture.

Lead Developer

ERPNext

05/2021 - 07/2022 Singapore, Singapore

- Data analysis and management

SUMMARY

In addition to these frameworks, I have hands-on experience with Laravel, a PHP framework known for its simplicity and elegance. I have utilized Laravel to develop custom web applications, focusing on code maintainability and performance optimization.

Furthermore, I have a strong understanding of cloud computing and have extensively worked with AWS services such as EC2, S3, and Lambda. I have successfully deployed and managed applications on the AWS platform, ensuring scalability, reliability, and cost-effectiveness.

EXPERIENCE

Senior Software Engineer

litigiosos

05/2022 - 06/2023

Buenos Aires, Argentina

- Manage the design and develop for school ticket.
