## SUMMARY

With 5 years of experience as a Full Stack Developer, I have collaborated with various companies including small startups and large communities.
This has given me a deep understanding of the entire web lifecycle, from initial architecture to final deployment.
I have dedicated much of my career to developing an improved problem-solving approach for difficult tasks, as well as staying updated on new technologies and tools when necessary.
Love to work with great people, inspiring others, being inspired, and mentoring others.
